8L90-REG-OS
Overdose TCC/S2/S3/early S4 regulator valve
 Requires 8L90-REG-TK Tool Kit

Depending on wear, this valve body could use up to 4 of these valves per unit.

The drop-in version of this regulator valve is included in the TransGo 8L45/90 SHIFT KIT® valve body repair kit. Due to customer request, we offer this valve in an overdose option.

Corrects/Prevents/Reduces:

- Harsh, slipping, or missing shifts
- Coast downshift clunks
- TCC shudder or slip
- Transmission control valve errors 2/3/4/7
- TCC P0776, P0796, P2174, P2808 (Stuck Off)
- TCC P0777, P0797, P2175, P2809 (Stuck On)

8L90-REG-TK
Tool kit

High speed steel reamer with guide for use with #8L90-REG-OS.

8L90-S1REG-OS
Overdose S1/S5 regulator valve
 Requires 8L90-S1REG-TK Tool Kit

Depending on wear, this valve body could use up to 2 of these valves per unit.

Corrects/Prevents/Reduces:

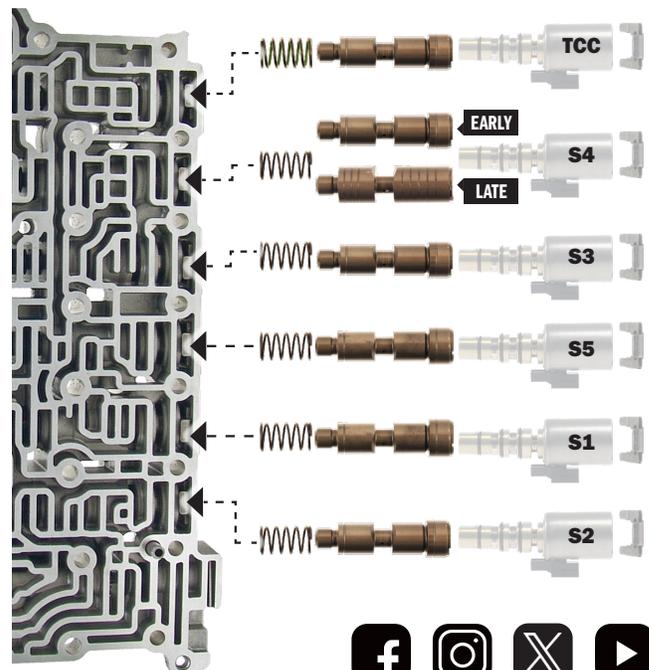

- Harsh delayed reverse engagement
- Slipping or missing 2-3, 3-4, 6-7 shifts
- Coast downshift clunks 3-2, 4-3, 7-6
- Transmission control valve errors 1/5
- Stuck Off (P0746, P2723)
- Stuck On (P0747, P2724)

8L90-S1REG-TK
Tool kit

High speed steel reamer with guide for use with #8L90-S1REG-OS.
